WELCOME

The Meissen ranges of clean, innovative and elegant taps is inspired by the magnificent and timeless mountain ranges of Eastern Germany. Developed to feature as not only a faucet, but as a beautiful and breathtaking piece of art.

Meissen's signature series is crafted from high-grade DZR brass, state of the art technology and a passion for innovation. Creating a leading, premium look and feel.

Using the most advanced engineering equipment & technology, we are able to create the most beautiful & high-quality designs. Meissen fuses brand and quality together, creating uniquely trademarked products.

We are proud to be working with designers who continuously create pioneering, innovative & beautiful products that everyone can enjoy.

MUST-KNOW INFO

Meissen's products are a result of 1000s of hours of focused creativity, pristine craftsmanship and dedication. Here, you will find more information on what makes each and every faucet so great.

DZR BRASS

WHAT IS DZR BRASS?

"Dezincification resistant brass" or DZR brass is the name given to brass with exceptional resistance to a form of corrosion called dezincification."

SABS DZR GRADE BRASS

All of Meissens products are manufactured using the SANS standard of DZR brass, which was first introduced as a British standard and has been adopted by the SABS as a requirement in order to carry the SABS Mark.

CITEC CARTRIDGE

THE HEART OF THE FAUCET

We have partnered with CITEC, one of Europe's leading manufacturers, using the most advanced ceramic based cartridge technologies. We ensure that our mixers deliver the best level of performance for all of our proud users by regulating the flow & temperature as efficiently and effortlessly as possible.

All of Meissen's cartridges come with a 15 year guarantee.

NEOPERL
AERATOR

PERFORMANCE

The aerator is a key component in the overall performance of the faucet. The aerator determines how the water is delivered to the user. Meissen's ranges of faucets utilize the best aerator technologies available.

GERMAN / SWISS TECHNOLOGY

All of Meissen's ranges use Neoperl aerators. Each with different features and benefits for functionality and efficiency.

KWIK-FIT
FIXATIONS

BENEFITS

The Meissen "KWIK-FIT" tubular fixation set provides the installer with an easier and more stable installation.

HOW-TO

Simply tighten the faucet on to the basin or sink by tightening it with your hands as apposed to using a spanner / wrench. This is very useful when working in tight spaces.

FLEXIBLE
HOSES

BRAIDED FLEXIBLE HOSES

1. 450mm long hoses, 15mm(1/2"), one with long male end & one with short male end makes for a far easier installation. The extra 100mm provides more than adequate length, no matter whether it is a retro-fit or a new installation. The short & long male ends provide more space for the installer to thread the hoses into the mixer.

2. Our hoses come with 2 o-rings. This provides twice the sealing security.

3. All Meissen hoses are SABS approved.

FINISH
& SURFACES

CHROME

Using advanced electro-plating techniques, all of Meissens chromed faucets receive the highest level of chroming that technology has to offer.

COLORS

Our offering of colors, with their graceful yet expressive finesse, are the perfect finish to any bathroom looking to catch the eye and create a long lasting impression.

15 YEAR GUARANTEE ON CHROME
5 YEAR GUARANTEE ON COLORS

LIST OF SPARES

Meissen offers a broad range of spares. Simply use the grid to navigate to the code and product you are interested in to find your desired spare.
